WORKING ASHORE

Whatever role you choose, you'll spend time ashore and working hours can be much like those of any other job. The Navy is committed to providing all officers with a good balance between your duties and your personal life.

You can make the most of the extensive sports and social facilities on base, or head out to discover the delights of your neighbourhood. All the while forging friendships that last a lifetime.

TIME AT SEA

All officers spend time at sea where life is far from the mundane. You'll discover the true meaning of teamwork and camaraderie as a member of a close-knit group onboard.

In addition to carrying out the duties associated with your everyday role, you'll also be engaged in the general maintenance and

upkeep of your Navy vessels and equipment as part of the larger team. In your spare time, all ships are equipped with exercise and entertainment equipment, along with ways to stay in touch with loved ones. The food we serve is of the highest quality, and the view from your 'home' will change every day.

IN A SUBMARINE

For some Navy Officers, there's no place they'd rather work than the unique environment of a submarine. If you join as a submariner, pretty much everything we've talked about here applies, other than the view when at sea.

Submarines are highly supportive communities that offer plenty of opportunities for relaxation and entertainment. Maintaining fitness is important, so all vessels feature a variety of exercise equipment.
