52 HOW TO APPLY

56 TAKE THE NEXT STEP

This brochure provides an overview of the job opportunities available to you through Defence University Sponsorship. Look out for the search symbol to access additional information online.

HOW DUS WORKS

APPLY FOR A ROLE THEN COMPLETE YOUR COURSE

You'll find dozens of officer roles in the Navy, Army and Air Force, across professions such as engineering, healthcare, allied health, law, human resources and logistics. Each promises an exciting lifestyle, opportunities for travel and world-class training.

Through Defence University Sponsorship (DUS) you can apply for one of these positions while studying for a degree. For Army, you can begin your application after you have your results from at least the first semester. For Navy and Air Force, you can apply from the time you accept a relevant university offer. If successful, you'll join your chosen Service and be paid a salary package for the agreed period it takes to complete your studies.

CONCENTRATE ON YOUR STUDIES WHILE

WE PICK UP THE FEES

The Australian Defence Force (ADF) will pay you while you study and undertake initial military training, and provide you with opportunities to experience Service life during semester breaks.

Your university fees will be paid from day one of your employment; and you'll have the peace of mind of a guaranteed job once you've graduated. Different degree streams attract differing durations of funding. Speak with a Defence recruiter to find out more.

THE BENEFITS OF SPONSORSHIP

A REWARDING ROLE TO WALK INTO AFTER GRADUATION IS JUST THE START. DUS ALSO OFFERS:

- A salary while completing your studies
- Free medical cover
- Your course HELP fees paid from the time your sponsorship is approved
- Free dental care
- Textbook reimbursement
- Generous superannuation
- Subsidised rent
- Professional development

COURSES THAT QUALIFY

YOU'LL FIND A FULL LIST OF QUALIFYING DEGREE COURSES IN THIS BROCHURE, ALONG WITH THE ADF ROLES THEY ALIGN WITH. THE DEGREES FALL INTO THE FOLLOWING BROAD CATEGORIES:

- Business and Economics
- Medical, Health and Allied Health
- Engineering
- Science
- Law
- Humanities

DUS is also offered to graduates of other subjects, who now wish to study medicine and who meet the eligibility requirements for Graduate Entry. For more information visit www.gemsas.edu.au

Please note the degrees sponsored by the ADF and the roles available can vary year to year.

Please note that sponsorship offers are dependent on ADF needs at the time of application, so positions may not always be available and new positions may be added at any time.

Degree courses similar to those listed in the above table may be acceptable and will be assessed during the recruiting process. Should you be accepted to continue double degrees studies, second degree sponsorship may be considered on a case-by-case basis. Sponsorship of ADF engineering degrees will only be considered if the chosen degree is accredited by Engineers Australia.

NAVY

AEROSPACE ENGINEER OFFICER

Head up a team that keeps advanced Navy helicopters such as the Seahawk operating at peak capability. Working with the latest tools and systems in well-equipped hangars on base or at sea, you'll operate at the leading-edge of aerospace engineering.

Comprehensive training will equip you with the skills and knowledge to lead a team responsible for airworthiness, aerodynamics, resource requirements and maintenance schedules, or a team responsible for maintaining avionics and integrated weapon systems, which includes conducting flight trials and research and development.

ELECTRONICS ENGINEER AND

ELECTRONICS ENGINEER SUBMARINER

Manage a team that monitors, maintains and repairs the electronic systems of Navy ships, and receive ongoing training to tackle the challenges presented by next generation vessels and state-of-the-art technology.

Equipped with the latest tools and equipment and working in modern maintenance facilities alongside or at sea, you'll be responsible for your vessel's high-tech communications, radar, sonar, navigation, combat data, fire control and weapon systems.

MECHANICAL ENGINEER AND

MECHANICAL ENGINEER SUBMARINER

Take charge of an expertly trained team of Marine Technicians, helping keep the Navy's formidable fleet of advanced ships operating at peak performance.

Carrying out your responsibilities in a dynamic team environment, you'll use the latest tools and maintenance equipment to monitor, maintain and repair your ship's structure, propulsion systems, electrical generation and distribution systems, and domestic and associated mechanical services.

Q 'NAVY <JOB TITLE>

ARMY

AERONAUTICAL ENGINEER

Take charge of a team of highly-trained tradespeople and technicians, looking after the maintenance, logistics and engineering management of one of the most exciting aircraft fleets in Australia.

In this broad-based engineering role you'll work in varied operational environments as the technical expert responsible for the airworthiness of iconic aircraft such as the Black Hawk, Chinook and Tiger Armed Reconnaissance Helicopter.

AEROSPACE SOFTWARE ENGINEER

Employ state-of-the-art concepts and cutting-edge methodology in the specification, testing and documentation of large-scale software systems for advanced military helicopters.

Employed as an officer in operational environments, the maintenance, logistics and management functions you engage with in this role will be critical to ensuring the airworthiness and availability of aircraft such as the Black Hawk, Chinook and Tiger Armed Reconnaissance Helicopter.

Q 'ARMY <JOB TITLE>

AVIONICS ENGINEER

Assume responsibility for the state-of-the-art electronic systems that control our transport, armed reconnaissance and multi-purpose helicopters, keeping them in optimal working order.

You and the technicians under your command will fit, inspect, maintain and repair the sophisticated instrumentation, flight control and navigation systems, communication equipment and radar used to keep our technologically-advanced fleet at peak military effectiveness.

ELECTRICAL/MECHATRONIC ENGINEER

Manage the repair and maintenance of high-tech military hardware that could include tanks, trucks, artillery weapon systems, armoured personnel carriers, radios, radar and missile systems.

Employed in operational environments as an officer in command of as many as 50 technicians and tradespeople, you'll support Army capability in areas ranging from infantry to aviation. In addition to the practical side of your role, you will be responsible for procurement and resource management.

MECHANICAL ENGINEER

Monitor and maintain the mechanics of advanced military hardware, which could include watercraft, tanks, trucks or armoured personnel carriers, as well as radar, artillery guns or missile systems.

Working with the very latest tools and technology in well-equipped workshops, you and your team of expertly trained technicians and tradespeople will operate on base and in the field in operational environments. This highly varied role could take you across Australia and even overseas.

 'ARMY <JOB TITLE>'

AIR FORCE

AERONAUTICAL ENGINEER

Lead and manage a team that works with aircraft structures, systems and equipment to build and deliver capability for the Air Force and ADF. You'll apply your knowledge of aeronautical engineering principles across a variety of Air Force aircraft, acquiring, managing, sustaining and maintaining different equipment and technology.

AIRFIELD ENGINEER

Draw on your specialist military and technical civil engineering skills, while working on Air Force infrastructure, aerodromes and a wide range of projects. You'll play an important role, contributing to the Air Force's capability, and supporting operations in Australia and overseas.

ARMAMENT ENGINEER

Lead and manage an engineering team to help create and deliver weapons capability for the ADF. You'll apply your knowledge of engineering principles to acquire, maintain and manage a wide range of Air Force weapons, including the computer systems used to control them.

ELECTRONICS ENGINEER - AVIATION

Play a crucial role in maintaining Air Force electronics ranging from aircraft in the sky to communication, navigation, surveillance and control equipment on the ground. You'll be responsible for power generation and distribution, radar and navigation, surveillance, electronic control, mission, communications and electronic warfare systems.

ELECTRONICS ENGINEER - CYBER SYSTEMS

Service, maintain and protect cyberspace and networking systems to facilitate the sharing of important battlespace information. You'll play a crucial role in supporting exercises and missions by working on projects, technology and systems, including state-of-the-art defence networks, satellites and the space domain.

Q 'AIR FORCE <JOB TITLE>

I got paid a salary while studying, and didn't have to compete with newly graduated engineers when I left university.

Please note that sponsorship offers are dependent on ADF needs at the time of application, so positions may not always be available and new positions may be added at any time.

Degree courses similar to those listed in the above table may be acceptable and will be assessed during the recruiting process. Should you be accepted to continue double degrees studies, second degree sponsorship may be considered on a case-by-case basis.

NAVY

DOCTOR

Be a medical professional with a difference, looking after the health and wellbeing of Navy personnel. Your practice could be aboard a ship, in well-equipped shore-based facilities, or in a deployed field hospital; and at times you may be called upon to assist civilian communities in need.

As a Doctor in the Navy you'll benefit from valuable managerial and leadership training, and you may have the opportunity to specialise in areas such as aviation, underwater and occupational medicine.

DENTIST

To be an effective force the Navy needs all its personnel fit and healthy, including their dental health. As a Navy Dentist, you'll provide the full range of dental treatments to all Australian Defence Force personnel at no cost to the patient.

You'll practice the highest quality dentistry using modern and fully-equipped facilities, enjoying opportunities for specialist postgraduate training in most major fields.

Q 'NAVY <JOB TITLE>'

ARMY

DOCTOR

Apply your skills and training to a wide variety of medical disciplines, including primary care, occupational medicine, trauma and rehabilitation, tropical medicine and sports medicine.

In this challenging and rewarding position your well-equipped surgery could be anywhere from an Army base to a deployed field hospital, across Australia or overseas; and you will be given excellent opportunities to advance your career studying specialist medical areas of your choice.

NURSE

Carry out a broad range of primary care, clinical management and medical administration duties; and work in command positions that will develop your skills and knowledge beyond the purely clinical.

Working anywhere from a well-equipped military hospital to deployed environments at home and overseas, the situations you encounter daily will test your resolve, initiative and capacity to adapt to challenging and changing circumstances; making this a uniquely rewarding healthcare role.

Q 'ARMY <JOB TITLE>'

AIR FORCE

DENTIST

Take your dentistry career in an exciting new direction looking after the dental health of Air Force personnel in locations across Australia and the world.

Working in modern, well-equipped clinics and supported by fully-trained Dental Assistants, you'll provide the full range of dental treatments and oral hygiene services. At times you'll also enjoy the extra challenges and rewards of working in field dental units in Australia and overseas, on operations and exercises.

DOCTOR

Set yourself apart from civilian practitioners, helping Air Force personnel maintain their health and fitness and providing specialist healthcare in deployed environments.

On base you'll provide occupational and preventative healthcare services. On deployment, you'll apply your specialist skills in aeromedical evacuation and aerospace medicine, assisting both ADF personnel and civilians in need following major disasters. In time, you may take on a health leadership and management role.

ENVIRONMENTAL HEALTH MANAGER

Join an essential ADF health protection element on air bases and deployments in Australia and overseas, where your specialist advice will be used to prevent injuries and illnesses.

You'll plan, coordinate and conduct environmental health and occupational hygiene assessments of both permanent and temporary workplaces. You'll also be responsible for food and water safety, occupational hygiene, waste management and emergency management, among other areas.

NURSE

Choose a nursing career with benefits beyond any civilian nursing role, looking after the varied medical needs of ADF personnel and helping communities in Australia and overseas.

You'll enjoy vocational variety, working in both modern medical facilities and under canvas on deployment. You'll provide leadership to your team, and in addition to your general nursing duties, provide specialist care in a range of scenarios, from attending to major disaster injuries to managing the aeromedical evacuation system. In time, you may take on health leadership and management roles.

Q 'AIR FORCE <JOB TITLE>

MEDICAL SCIENTIST (PATHOLOGY)

Embark on a pathology career with fulfilling extra dimensions, working in well-equipped, multi-disciplinary hospital laboratories. You will be a part of the allied healthcare team and provide diagnostic support on deployments and exercises in a range of environments within Australia and overseas.

You'll perform and supervise a range of common pathology laboratory investigations – including haematology investigations, serology, biochemistry and microbiological analysis – advising clinicians through laboratory reports. And you'll manage instrument maintenance, laboratory resources and the blood bank.

PHARMACIST

Become an integral member of the ADF healthcare team, providing a range of pharmacy and health logistics services.

You'll enjoy varied work experience, providing pharmacy services and professional advice, developing medication policies and instructing on health training programs. You'll also manage the resourcing and deployment of temporary medical facilities in support of remote exercises and operations. In time, you may have the opportunity to travel and practice in an operationally deployed role.

PSYCHOLOGIST (POST GRADUATE ONLY)

You may commence the application process during your final year of a four-year degree in Organisational Psychology. At the time of your application, you must be eligible for full registration as a psychologist with the Australian Health Practitioner Regulation Agency (AHPRA).

Depending on your area of expertise, you'll perform important tasks that range from organisational psychology and recruitment assessments to work that is specific to aviation human factors or clinical psychology. You may also get involved in personnel training across a variety of disciplines, post operation screening and clinical support.

Q 'AIR FORCE <JOB TITLE>'

RADIOGRAPHER

Use your radiography skills and expertise in exciting and diverse environments as an integral member of the ADF medical team.

You'll carry out duties similar to those practiced in the community, but with an operational focus. Using modern and well-maintained X-ray and ultrasound equipment, you'll provide medical imaging services within Australia and overseas in support of multi-national operational and peacekeeping deployments.

Please note that sponsorship offers are dependent on ADF needs at the time of application, so positions may not always be available and new positions may be added at any time.

Degree courses similar to those listed in the above table may be acceptable and will be assessed during the recruiting process. Should you be accepted to continue double degrees studies, second degree sponsorship may be considered on a case-by-case basis.

NAVY

INTELLIGENCE OFFICER

Manage a highly trained team of sailors responsible for receiving, analysing and disseminating classified information critical to the success of Navy operations.

Working in unpredictable circumstances, you will use critical thinking and a high degree of mental agility to quickly synthesise and analyse information, providing strategic intelligence to support commanders and staff at all levels, both at sea and ashore.

LOGISTICS AND FINANCE OFFICER

Step up to the ultimate supply chain management role, ensuring Navy personnel and the ships they serve in receive the highest level of logistics support.

Expertly trained in planning, resource management, operational cycles and budgets, you'll manage the availability and delivery of everything from catering supplies to helicopter parts. As an officer you'll also take command of a team that supports whole ship operations when at sea and ashore.

Q 'NAVY <JOB TITLE>

SURFACE WARFARE OFFICER AND

MARITIME WARFARE OFFICER SUBMARINER

Rise to the challenge of adopting a key leadership role on board a Navy ship or submarine. This demanding position sets you on the path to commanding your own vessel, or moving into a choice of other specialist areas.

You'll acquire watch-keeping and navigation skills, and will be responsible for keeping your vessel operating safely and efficiently. A variety of degrees can qualify you for this role, however completion of a STEM (Science, Technology, Engineering or Maths) degree may give you an advantage.

TRAINING SYSTEMS OFFICER

Find stimulating new outlets for your education expertise and knowledge, developing and managing world-class training systems for the Navy and Australian Defence Force. You'll develop, manage, evaluate and coordinate a wide range of training delivery systems, and be responsible for quality control as well as the training of instructors, assessors and evaluators.

Sponsorship is open to undergraduates and graduates. Graduate applicants are required to have a bachelor's degree and be eligible for postgraduate studies in one of these disciplines:

- Adult Learning
- Vocational Education and Training
- Training and Development
- Simulation or Emulation
- Education (Secondary)

Successful graduate applicants may be funded for a specific qualification, depending on the Navy's priorities. Teaching (Primary) and Teaching (TESOL) degrees are examples of qualifications that are not accepted for this role.

Q 'NAVY <JOB TITLE>'

ARMY

LAWYER

Broaden your legal expertise in a dynamic team environment, undertaking a fulfilling variety of tasks in both civil and military areas while acquiring leadership skills.

As a Lawyer (Legal Officer) in the Australian Army Legal Corps, you will work in the broad fields of disciplinary, administrative, operations, civil and commercial law as well as dealing with legal aid requirements. Military legal practice and its emerging requirements constitute an exciting and ever expanding field of expertise.

Q 'ARMY <JOB TITLE>'

AIR FORCE

AIR INTELLIGENCE OFFICER

Operate in sensitive and highly classified environments, managing the provision of intelligence input support to Air Force operations and international security initiatives.

Deployed with an operational squadron, you'll be trained to interpret intelligence data, prepare and present intelligence briefs and conduct debriefs. You'll also lead teams conducting signals, counterintelligence and weapon systems analysis; and perform intelligence, surveillance and reconnaissance duties.

Q 'AIR FORCE <JOB TITLE>'

CYBER WARFARE OFFICER

Be at the heart of the Air Force's emerging cyber warfare capability, leading a team of technical experts responsible for protecting our networks, data and information systems. You'll take command of small tactical teams through a range of missions and functions such as incident response, discovery and counter-infiltration, cyberspace operations planning and threat emulation.

LAWYER

Tackle new challenges, providing legal advice and support to Air Force and ADF personnel at all levels, from Commanding Officers to the Chief of the Defence Force. You'll work across the core areas of legal practice, comprising discipline, administrative and operations laws.

These areas will be used to advise and support commanders with the management of personnel and the application of the military justice system – to enable military operations in Australia and overseas that comply with Australia's domestic and international legal obligations.

LOGISTICS OFFICER

Play a key role in ensuring the Air Force is prepared, fully equipped, resourced and operating at the highest level of readiness. You'll plan for and manage the transportation and delivery of everything from aeronautical components to catering supplies. As an officer, you may also be in command of a team that supports Air Force and joint units to operate within dynamic and challenging environments at home or overseas on operational deployments.

PERSONNEL OFFICER

Step up to a senior human resources role with a difference, supporting the delivery of air power through workforce management expertise, strategic communication and corporate support.

You'll be responsible for our most valued assets – our people – from both a capability and a welfare perspective. You'll specialise in human resources and case management, operational support, communication, workforce planning and organisational change, personnel management and training, or resource management – and be one of the first on the ground wherever personnel deploy.

SERVE YOUR COUNTRY

ENJOY ALL THE PERKS

BEFORE APPLYING FOR DEFENCE UNIVERSITY SPONSORSHIP, YOU'LL APPLY FOR A ROLE IN THE AUSTRALIAN DEFENCE FORCE, ONE OF THE WORLD'S LEADING MILITARY ORGANISATIONS.

If your application is successful you'll become a member of a modern, people-focused community spread across Australia and overseas. You'll join a group of talented and resourceful men and women equipped with cutting edge military technology, protecting Australia, its interests, and its way of life.

In addition to supporting Navy, Army or Air Force military operations, you may also enjoy the satisfaction of helping communities in need. Engaging in activities such as search and rescue, humanitarian assistance and disaster relief can be particularly rewarding.

Q 'ABOUT THE ADF'

YOUR LIFE IN THE NAVY, ARMY OR AIR FORCE WILL BE RICH AND DIVERSE.

Once you've graduated and commenced your full-time role, you'll develop your skills and leadership qualities in a uniquely supportive environment.

Q 'ADF BENEFITS'

THE BENEFITS OF SERVICE INCLUDE:

- Stimulating and varied work
- Ongoing professional development
- An excellent salary
- Generous superannuation
- Free medical and dental
- Work balanced with spare time
- Subsidised accommodation
- Travel and leave entitlements
- Free access to sports and fitness facilities
- Camaraderie and friendships that last a lifetime

GAIN

LEADERSHIP

RECEIVE

ONGOING CAREER

DEVELOPMENT

OFFICER TRAINING TAKES PLACE ON COMPLETION OF YOUR DEGREE TO HELP YOU DEVELOP YOUR LEADERSHIP, MANAGEMENT AND MILITARY SKILLS:

NAVY NEW ENTRY OFFICER

COURSE (NEOC)

- 🕒 One block of 15 weeks
- 📍 Royal Australian Naval College, Jervis Bay, NSW

ARMY OFFICER TRAINING

- 🕒 A period of between 9 and 41 days (depending upon your area of specialisation)
- 📍 Royal Military College - Duntroon, ACT

AIR FORCE INITIAL OFFICER

COURSE

- 🕒 One block of 12 weeks
- 🕒 1 week Undergraduate Familiarisation Course
- 📍 RAAF Base East Sale, VIC

🔍 **'ADF OFFICER TRAINING'**

THE NAVY, ARMY AND AIR FORCE WILL PROVIDE YOU WITH A WEALTH OF OPPORTUNITIES YOU SIMPLY WON'T FIND ANYWHERE ELSE, ALONG WITH WORLD-CLASS TRAINING THROUGHOUT YOUR CAREER.

Avenues for advancement and promotion are clearly defined, and you'll receive ongoing investment in your personal and professional development.

One-to-one guidance will be available while you're still completing your university studies. Then once you've graduated, you will be expertly trained and mentored to prepare you for the exciting challenges ahead.

YOUR COMMITMENT

IN RETURN FOR INVESTING IN YOUR EDUCATION THE ADF TYPICALLY REQUIRES YOU TO:

- Complete Service training or Service work experience each year during university holidays, and
- Commit to full-time service following graduation – in most cases for the number of years of university sponsorship plus one year, with a minimum of three years of service. Your initial period will be based on your sponsorship period and job requirements.

Speak with your Military Recruiter to find out more.

For example, if you are sponsored for just one year of study you must serve full time for three years, once you graduate. If you are sponsored for three years you must serve for four years.

For health specialities your service commitment begins once you have satisfied your registration and clinical experience consolidation requirements. If you have been sponsored through the Graduate Medical Program, you will be required to serve for the period of sponsorship times two, plus an additional year.

EDUCATION

STUDYING A JOB-RELEVANT DEGREE AT
AN ACCREDITED AUSTRALIAN UNIVERSITY

FOR ARMY, YOU CAN BEGIN YOUR
APPLICATION AFTER YOU HAVE YOUR RESULTS
FROM AT LEAST THE FIRST SEMESTER.

FOR NAVY AND AIR FORCE, YOU CAN APPLY FROM
THE TIME YOU ACCEPT A RELEVANT UNIVERSITY OFFER.

HOW TO APPLY

To apply for sponsorship of the degree you are currently studying, you must first apply for an officer role in the Navy, Army or Air Force and go through the standard application process.

1

USE THIS BROCHURE TO IDENTIFY THE ROLES AVAILABLE FOR YOUR DEGREE COURSE

Find full details of each role at adfcareers.gov.au

2

APPLY ONLINE, CALL 13 19 01 OR VISIT YOUR LOCAL ADF CAREERS CENTRE

You'll need to provide your contact details, degree status and job preference(s).

3

ATTEND A YOUR OPPORTUNITIES UNLIMITED (YOU) SESSION

Talk about the role(s) with a Military Recruiter at your local ADF Careers Centre, take an aptitude test and complete a medical questionnaire.

4

ATTEND AN ASSESSMENT SESSION

Undertake a medical assessment and attend psychological and job interviews to have your general abilities and potential assessed.

5

ATTEND AN OFFICER SELECTION BOARD

Be interviewed by a panel of officers and a psychologist, and participate in group and individual activities to have your leadership, teamwork and other areas of potential assessed.

6

COMPLETE A PRE-ENTRY FITNESS ASSESSMENT

You may need to complete a Pre-entry Fitness Assessment (PFA) which may consist of push-ups, sit-ups and a cardio component, such as a shuttle run (beep test). To find out which exercises and standards are relevant to you, visit the Health & Fitness page on adfcareers.gov.au

7

ATTEND APPOINTMENT DAY

Have a final medical check, join family and friends for the welcome ceremony, and then head back to university to commence or complete your degree.
